LLP "TCS Express" would like to express its gratitude for your trust and
long-term cooperation!

We are pleased to inform you that a decision has been made to merge LLP "TCS Express" and LLP "NAR Express & Logistics." Through our joint efforts, we will improve the quality of service for you, expedite the delivery of your shipments, and expand the range of services provided. By joining forces, we will increase our representative staff in 18 cities across Kazakhstan and strengthen our partnerships with transportation companies worldwide, which will benefit both our transportation capabilities and tariffs. This decision will also enable us to control service rates, despite significant increases in prices from air and road carriers, as well as rising costs of consumables. LLP "NAR Express & Logistics" has its own fleet of cars and trucks, as well as securely guarded warehouses within the city with an area of approximately 800 m³.

Considering the above, we kindly request you to transfer your existing contract from July 1, 2022, from LLP "TCS Express" to LLP "NAR Express & Logistics." You will be provided with branded waybills and envelopes, assigned a personal manager, and the contract will include contact numbers, email, and a website where you can submit requests and find information about shipments.

By working with LLP "NAR Express & Logistics," you can be assured of the reliability and high quality of the services we offer!

Director of LLP "TCS Express"
